

Lesson 1d: Compare, Order and round with Decimals

Objective: Students will compare, order and round decimals.

Complete on a separate piece of paper and turn in to basket.

Write each decimal in words

1. 0.17
2. 0.9
3. 716.039

Write the value of the underlined digit.

4. 2.619
5. 503.179

Compare decimals

1. Align the decimal points
2. Start from the left. Compare the digits until they are different.

Order decimals

1. Align the decimal points. Write zeros if necessary.
2. Start from left. Compare the digits.
3. Continue to compare decimals.

Round Decimals

1. Identify the place you want to round to. Underline that place.
2. Look at the digit to its right.
3. 5 or greater increase the digit by 1. 4 or less do not change the digit.
