

## Piano Practice

**Directions:** Use the double bar graph on page 23 to answer each question.

1. Which student practiced longer on Tuesday? \_\_\_\_\_
2. How many more minutes did Amanda practice than Terrance on Wednesday? \_\_\_\_\_
3. How many minutes did Amanda spend practicing the piano over the 3-day period? \_\_\_\_\_
4. How many minutes did Terrance spend practicing the piano over the 3-day period? \_\_\_\_\_
5. Which student spent more time practicing the piano during the 3-day period? \_\_\_\_\_

### THINK

Explain how a double bar graph makes it easy to compare two related data sets.
