

Lesson 6b: Customary Units of Length

Objective: Estimate, compare, and convert customary units of length

Warm-up: Math Minute

Learn About It: Describe the patterns and find the missing numbers. Which unit of customary measurement would you associate with each pattern?

1	2	3	4
3	6	9	?

1	2	3	4
12	24	36	?

1	2	3	4
36	72	108	?

Copy the following chart into your journal.

Customary Units of Length	
12 inches (in)	1 foot (ft)
3 feet	1 yard (yd)
5,280 feet	1 mile (mi)
1,760 yards	1 mile

Practice 6.2
