

Lesson 7b: Histogram

Objective: Make and use a histogram and understand the differences between bar graphs and histograms.

Complete on a separate sheet of paper and turn in to the basket.

Warm-up: Complete the double bar graph warm-up. Link is on the Math lesson page.

Learn About It: Making a Histogram

A histogram is a bar graph that displays how frequently data occur within equal intervals.

Making a frequency table

1. Look at the data to decide what intervals to use.
2. Use tally marks to record the frequency
3. Count the tally marks and write the frequency

Intervals	Tally Marks	Frequency

Brainpop: Graphs
