

Lesson 8b: Stem and Leaf Plots

Objective: Use a stem-and-leaf plot to display data

Complete on a separate sheet of paper and turn in to the basket.

Warm-up: Complete Reteach 8.2. The link is on the Math lesson page

Learn About It: How to create a stem and leaf plot

1. Write a title.
2. Write the **tens digits** needed to represent the data in order from least to greatest. Each of these numbers is a **stem**.
3. For each piece of data, write the **ones digit**, or **leaf**, next to its tens digit. Arrange the leaves in order from least to greatest.

Practice 8.3
