

I am excited to continue to be a part of the Linfield Family for an eighth year. I have taught 5th grade now for 21 years. I completed my undergraduate studies at Cal State East Bay where I also received a teaching credential. I earned a Master's Degree in Curriculum and Instruction at the University of Maryland with a focus on math and science. I am looking forward to being a part of your child's education here at Linfield.

I am excited to be a part of the STEAM program this next year. I love to learn new technology and to incorporate the use of different devices, apps, and hands-on projects into the classroom. My former students know me for saying, "there is an app for that".

My family has settled here in Temecula and we enjoy being a part of the Linfield family. I have 4 children. My 2 oldest boys are in college: Jonathan will be a senior at Point Loma College, and Justin will be a sophomore at the University of Riverside. My 2 youngest are attending the high school here at Linfield Christian: Kaitlyn will be a senior and Jason is entering tenth grade. They are all very involved in athletics and participating in school functions. You can find me at most of the school events.

I look forward to collaborating with each of you to help your child reach their full potential academically, socially, emotionally, and most importantly spiritually.
